

Big button phone

What is the big button phone?

The big button phone is an analogue telephone specifically designed for people with limited dexterity, hearing or visual impairments. This telephone has large black button keys with white numbering, which are the colours recommended by the RNIB in order to maximise contrast making it easy to use, particularly for the visually impaired.

How does it work?

Specifically designed to provide an easy to use telephone, the Big Button Phone can be used in conjunction with a Lifeline home unit or as a stand-alone telephone. The Big Button Phone is hearing aid compatible and has volume controls for the handset to support hearing impaired users. The phone also provides a volume control for the incoming ringing tone and a bright call indicator, ideal for alerting hearing impaired users to incoming telephone calls.

The phone also has a memory function including 3 fast dial numbers for programming to family and friends telephone numbers, last number redial and can be table or wall mounted.

Who is it for?

It is ideal for those with limited dexterity or hearing and visual impairments or anyone that has difficulty using a standard telephone.

Why is it needed?

The Big Button phone provides people who may have difficulty using a standard telephone with an easier to use telephone to help them remain in contact with friends and relatives.

Features and benefits

- **Hearing aid compatible** - supporting users who have hearing aids with a Telecoil (T position) function
- **Ringer volume control** - three ringer settings are available (low/high/off) for people with hearing impairments
- **Table or wall mounted** - allowing the phone to be positioned at the user's preferred location
- **Incoming call indicator** - a bright LED alerts the user to an incoming call
- **Large keypad** - large black buttons with white numbers support people with visual impairments
- **Telephone number memory** - can be programmed with 3 fast dial and 10 indirect memory telephone numbers, saving the user from having to remember telephone numbers
